Cali. Colombia. Sur América

I have known Verónica Hernández for 11 years. First, as a Head of Section when she attended the Elementary School and now, as Head of Secondary. Verónica has attended our school from Prekinder.

Our school has implemented the three IB Programmes, PYP, MYP and DP and at the same time, it must fulfill the National Curriculum. As a result of this, the Colegio Colombo Británico holds students to the highest academic and behavior expectations.

Veronica has proved to be a model student. She is extremely responsible with her school work and a very good student. Verónica is genuinely interested in learning, as she works independently in her own inquiries; she has outstanding organizational skills that have allowed her to meet our high academic expectations and despite the pressure to meet deadlines, Verónica has been able to successfully complete her work. Her regular contributions to class discussions are very valuable for peers and teachers. During seven years, she has participated in the Model United Nations with great success and she has also been an active member of the Student Council. Miss Hernández is also a very talented student. She has participated in our school musicals with outstanding performances and great discipline. She has also been invited to sing in a concert in honour of our soldiers for two years in a row. In other words, Verónica has been a role model to other students.

Verónica has shown to be a reliable person as she gets work done and meet the commitments with great consistency. She is open to try new activities and innovate with new projects in school. She has participated in several school activities with great success showing her capability as a good team player. As a student, Verónica has demonstrated impeccable work ethics. She is a principled and trustworthy person, giving an example of integrity and honesty to others. Additional to this, it has been very valuable her participation in various social and community service projects within school and out of school grounds too.

I highly recommend Verónica Hernández as she has proven to be a student of great value for us. Please do not hesitate to contact me should you require a further reference or other information.

Yours sincerely,

**Patricia Escobar**

Secondary Head of Section
